
EDUCATION

Doctor of Philosophy, Computer Science – Software Engineering (Current GPA: 3.81/4.00)	Expected Dec 2023
University at Albany, State University of New York	
Thesis: Automated E2E testing for user-driven web-applications	
Advisor: Prof.Dr.Mei-Hwa Chen	
Master of Science, Computer Science	June 2019
University at Albany, State University of New York	
Bachelor of Engineering, Information Technology	June 2017
University of Mumbai – Mumbai, India	

PROFESSIONAL EXPERIENCES

Teaching Assistant - Software Engineering Course - University at Albany - Albany, NY	Jan 2018 – Present
<ul style="list-style-type: none">Lab instructor for Software Engineering Graduate & Undergraduate courses<ul style="list-style-type: none">Design Lab AssignmentsTeach multi-tier web development, DevOps, AWS, and testing toolsSupervise team projectsCo-teach concepts in Software Engineering, under the oversight of Prof Mei-Hwa Chen focusing on verification and validation & design patterns	
Research Assistant - Software Engineering Research Lab - University at Albany - Albany, NY	June 2018 – Present
<ul style="list-style-type: none">Thesis: Automated E2E testing for user-driven web-applications<p>I am working on improving the efficacy of software testing campaigns by taking an integrated approach towards test generation, based on historical usage and data access along with incorporating continuous learning based on real-time application operation in the field. My work focuses on testing modern web applications. The technique models the application in a holistic full-stack approach as Hierarchal Hidden Markov models and encompasses user behaviour.</p>Project lead – software development team<p>I lead software developments for the lab pertaining to tools for academic research projects like the Knowledge Forum with Ontario Institute for Studies in Education and University of Toronto & Knowledge building data analytics - UAlbany</p>Assistant Researcher for regression test case selection algorithms & dynamic reliability prediction techniques	
Department Advisory Board Member - Vidyalankar Institute of Technology - Mumbai, India	Aug 2021 - Present
<ul style="list-style-type: none">Advise on the creation of directives for coursework design for the Department of Information TechnologyBuilt framework to encourage, promote, and measure student research success.	
System Engineering Intern - Prashant Advanced Medical Services Pvt. Ltd. - Jalgaon, India	May 2016 – Dec 2016
<ul style="list-style-type: none">Developed applications to automate data processing and develop a central gateway for remote managementDevised automatic software build systems. Migrated ERP modules to the cloud – <i>Cloud Computing & AWS</i>	

ACADEMIC ACCOMPLISHMENTS

Recipient of The Academic Advancement Grant from the Graduate School, University at Albany – Albany, NY	Dec 2019
Published novel technique for automated regression test selection by leveraging program invariants <ul style="list-style-type: none">Chen, Y., Chaudhari, N., & Chen, M. (2021). Context-Aware Regression Test Selection at Asia-Pacific Software Engineering Conference (<i>APSEC</i>) 2021	
Presented software architecture for supporting recent software-based developments in knowledge building <ul style="list-style-type: none">Chaudhari, N., Seth, K., Chen, M. Architecting Knowledge Forum to enable development, research & compliance at scale: at the Knowledge Building Summer Institute (<i>KBSI</i>) 2018, Toronto, Canada	

LEADERSHIP

Student Ambassador - MedHacks John Hopkins University, Baltimore, MD Aug 2018

Vice-Chair & Co-Founder - Institute of Electrical and Electronics Engineers Chapter (IEEE), University at Albany, NY Aug 2017

OUTSTANDING ACHIEVEMENTS

Won the **Best use of blockchain & cryptography** award in **MedHacks** at the Johns Hopkins University Sep 2018

Invited to present and build at the BCG-Digital Venture's Hacks Mobility April 2018

India National Rifle Shooting Team 2014-2015 & 2017

- Represented the country of India at 4 International Competitions and Championships
- Set 4 new **National Records**, Won Multiple National & State level Medals
- Recognized as a Renowned Shooter of India, by the National Rifle Association of India

Discovered an exploit in *Android 2.3*, MediaTek-based devices based on file systems Feb 2012

Guide and "Member of Staff" at androidforums.com: built Android based OS for devices 2011-2014

SKILLS & TECHNOLOGIES

- Python, JavaScript, Node.js, React.js, Angular.js, MongoDB, Java Spring, PHP, HTML5, CSS, C/C++ (SEED Certified A+)
- Testing: selenium, WebDriver, Junit, jest, Robotium, Appium
- Tools: Git, GitLab, Gitlab CI/CD, Cloud Computing: Docker, AWS S3, AWS Elastic Beanstalk, AWS EC2, Minio
